

## TEASER PAGE

17. En-route clue: apparently there is something wrong with the bridge? What?

At lights turn right to Chipping Norton A436

18. En-route clue: have you spotted the mythical beast?

Take the turn off the A436 to LOWER ODDINGTON

19. What musical instrument can you spot at 'Quags'?

20. When was the Old Post Office built?

21. Finders?

22. Who is the Eleventh Century church dedicated to?

Back on the road now along the A436.

When you reach the junction with A44, take a quick right then immediate left, and go straight for the Rollright Stones. Parking is in the lay-by outside, about 100 yards after you pass the turn off sign for Little Rollright (but don't turn off towards Little Rollright). There is a small entrance charge if you wish to go in and see the stones, but that should not be necessary to solve the clue.
